

DART's Rideshare Delaware is your key

a service of DART First State

to a better commute!

a service of DART First State

Join thousands of Delaware employees who have discovered the key to a better commute by sharing the ride in a carpool, vanpool, or on public transportation. These smart commuters are saving money, reducing unnecessary driving stress, and they're saving our environment by reducing pollution. DART RideShare Delaware's commuter service program can help you explore your commute options. Our ridematch service is fast, easy, free and confidential to all who work in Delaware. There are no residency requirements and no car is required to participate.

ALREADY RIDESHARING?

Register to receive up to four (4) free rides home from work (annually) in the event of a workday emergency.
